

My collection is called "forest story". It is A/W 25 girl's collection. My price point is young designer. My target consumers are girls between 7-12 years old.

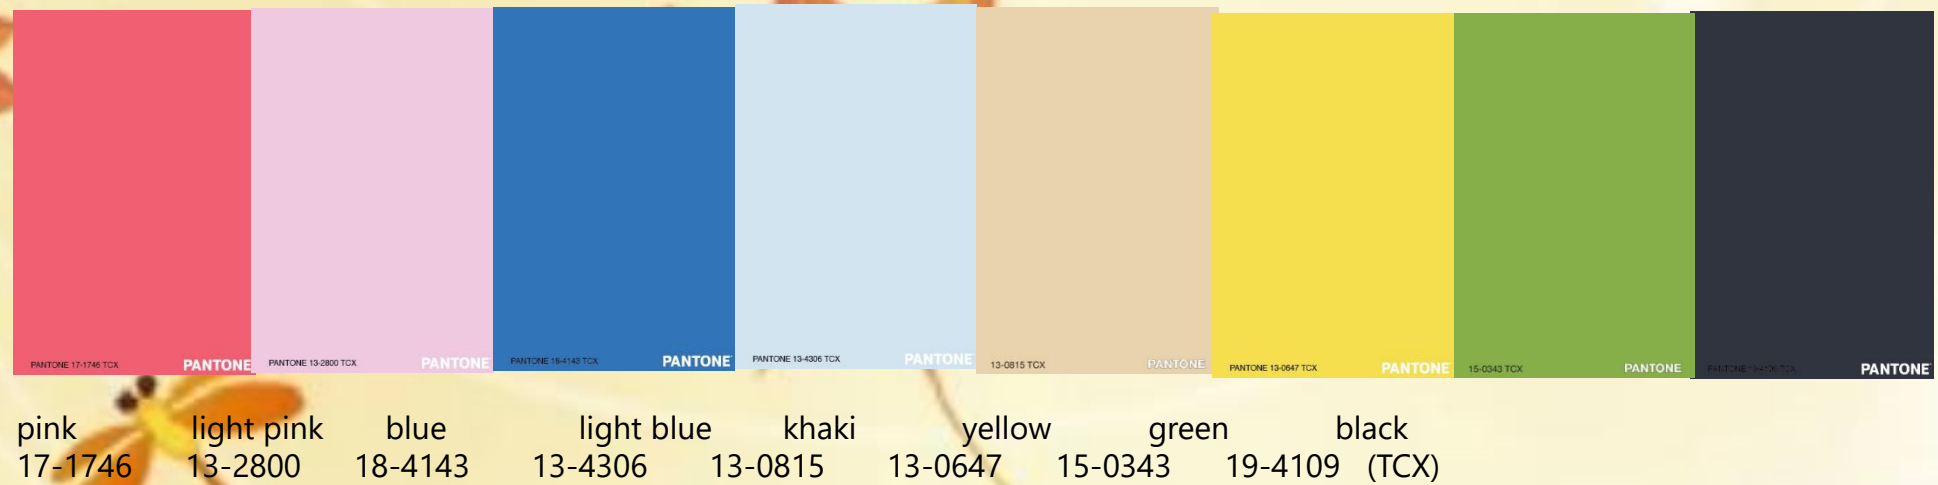

The "forest story" collection for girls' wear brings a blend of nature inspired themes with the playful, energetic vibe, creating a fresh, vibrant look.

This aesthetic combines earthy, woodland elements with bold colors and imaginative details- aiming to bring the beauty of forest into girls' clothing.
